Seating

Seat sling

The seat sling differs between the Argon and the Neon. Both provide a rigid base for seat cushions and are available with a choice of utility bags located to the underside of the sling.

1 Utility bag

Available on all models

Catheter bag

No Available on Q. Life

2 Utility bags

No Available on Q. Life

Lightweight seat sling - Available on Xenon, Xenon SA, Neon and Neon SA

Made from a vented lightweight vented material, the lightweight seat sling provides a weight saving for active users where every gram counts.

Available with a choice of utility bags

1 Utility bag (3014) / 2 Utility bags (3017) / Catheter bag (3018)

Seat Sling Clip Style (airflow) - Available on Helium

Available with a choice of utility bags located to the underside of the sling with 1 utility bag, catheter bag or 2 utility bags.

Solid seat padded - Available on Neon and Neon SA (3010)

Consisting of a wooden base and foam cushion this seat is available to suit all frame sizes.

Cushions

Seat cushion with black cover - Available on all models

This seat cushion complete with removable washable cover, is available in **Latex** material (in a 5cm or 8cm cushion thickness) and **Foam** material (in 3cm or 5cm cushion thickness).

Seat Cushion with water resistant / breathable cover - Available on all models

This seat cushion comes complete with a breathable inner cover that is water resistant whilst enabling air exchange when seated.

Like the standard cushion this comes in 3cm or 5cm thickness of **Foam** cushion or in 5cm or 8cm thickness of **Latex** cushion.

Medical lamb skin cushion cover - Available on Neon and Neon SA (1404)

Ideally suited for users who require added warmth and a softer feel when seated, the medical lamb skin cover is completely removable and wraps around standard seat cushions.

Available in 3 sizes : 35cm, 40cm or 45cm wide

Jay clinical cushions and backs

JAY® offers a complete range of cushions and backs to meet individual user needs. **The comfort cushions**, for users with moderate to low skin protection and positioning needs. **Skin protection cushions** for moderate skin protection and positioning needs and the **Positioning & Skin protection cushions**, for user with more complex positioning needs and or high skin breakdown risk

For more information please refer to the JAY® cushions Brochure and Order form

Jay Backs

JAY® backs are designed to provide posterior lateral pelvic stabilization along with enhanced trunk stability. They are lightweight and adjustable, allowing for easy installation. JAY® backs reduce fatigue and maximize function to provide clients the comfort and stability to go anywhere with confidence.

For more information please refer to the JAY® backs Brochure and Order form

 The contour depths and back heights are available in the following combinations

Shallow Contour (SC)

Mid Contour (MC)

Deep Contour (DC)

Mid thoracic (MT)

Headrests available for SC and MC

Upper thoracic (UT)

Lateral, headrest and harnessis available for SC, MC, DC and PDC

Shoulder height (SH)

Lateral, headrest and harnessis available for SC, MC, DC and PDC

Width available:

31, 36, 41, 46 and 51 cm

31, 36, 41, 46 and 51 cm

36, 41, 46 and 51 cm

Backrest

The Quickie range of manual chairs offers a choice of backrests to suit any situation. Choose from a range of backrest frames and upholsteries to suit users with mild to moderate clinical requirements.

Backrest frames

Fixed 90°, non angle-adjustable, non-folding backrest

Fixed at 90° this backrest is not adjustable and can not be folded. Ideally suited for users who want a rigid backrest with minimal play and movement when propelling.

Ideally suited for users looking to save weight and use this back frame in combination with a solid back

Available on Xenon and Xenon SA

Available on Neon, Neon SA (4017)

Available on Xenon, Xenon SA for desk sideguards

Non-folding, angle-adjustable backrest

The backrest provides +8° (backwards) to -12° (forwards) of back angle adjustability in 5° increments.

This simple but effective design allows the backrest to be adjusted in minutes by relocating the fixing screws through a sequence of holes located at the rear of the frame.

Unique in design, this mechanism provides users with an adjustable backrest that is firm and rigid with no play.

Available on Neon, Neon SA and Argon (4018)

Available on Quickie Life

Available on Xenon, Xenon SA

Available on Xenon, Xenon SA for desk sideguard

Available on Helium

Folding, angle-adjustable backrest - Available on Neon, Neon SA and Argon (4029)

Using the same angle-adjustable mechanism as the non-folding, angle-adjustable back (4018) this back provides users with the same level of adjustment with the added benefit of allowing users to fold down the back in seconds using the quick release pull cord for ease of storage and transportation.

Folding, angle-adjustable backrest - Available on Helium (4029)

Double locking backrest- Available on Argon and Helium (4016)

An addition to the folding backrest (4029), this allows the backrest to be locked whilst in the folded position with the flick of a lever.

This enables users to lift and move the chair ensuring the back stays in the folded down position.

Available on Helium (4018)

Note: Available in 3 colours

Upholstery

Adjustable backrest upholstery (Tension adjustable)

The Quickie range of backrest upholsteries all provide users with excellent support and flexibility through tension adjustable straps which can be adjusted and shaped to the user's back for greater comfort and better posture. Available in nylon (std), vented and leather.

Nylon / Standard - Available on all models (4032)

Available in a range of colours (on nylon Neon, Neon SA and Argon)

Vented material - Available on all models

The vented material enables air exchange and heat dissipation for greater comfort when seated for long periods.

Air flow (lighthouse) adjustable backrest upholstery

- Available on Xenon, Xenon SA. and Helium

Alcantara Available on Xenon, Xenon SA and Helium (in brown and grey)

Solid backrest - Available on Neon and Neon SA (4025)

Padded for extra comfort and suspended via the backrest tubes, this detachable solid backrest is ideally suited for users requiring extra support in the lumbar region.

Backrest Cushion - Only Available on Neon, Neon SA

Available in 2 Thicknesses :30mm (4035) and 50mm (4036)

Push handles

Short push handles - Available on all models

Long push handles - Available on all models

Push handles

Fold down push handles - Available on all models

Fold these push handles down with the click of a button for ease when storing or transporting the chair.

Height adjustable push handles- Available on all models

Easy to adjust through a simple lever making life easy for users with different attendants and carers.

Other Options

Jay hardware height adjustable push handles- Available on all models

This hardware kit includes the Quickie height adjustable push handles and contains everything that you need to fix any Jay® backrest to the push handles supplied.

Stabilising bar Swing-Away - Available on Neon, Neon SA, and Xenon SA

Painted to match the frame colour and mounted onto the back tubes, the stabilising bar provides added rigidity to folding chairs. Ideally suited for use with tension adjustable backrest.

Folding stabilising bar - Available on Neon, Neon SA, Xenon and Xenon SA

Mounted onto the push handles the folding stabilising bar provides added rigidity to folding chairs, ideally suited for use with tension adjustable backrest.

Slide the sleeve from the centre and the folding stabilising bar folds with the chair.

This option is only available when the chair is fitted with height adjustable push handles.

Neon and Neon SA

Xenon and Xenon SA

Other Options

Auto folding stabilizer bar - Available on Quickie Life, Xenon and Xenon SA.

Oval shaped backrest tubing (OSB) - Available on Helium

Half folding back - Available on Quickie Life, Xenon and Xenon SA

Other Options

Headrest - Available on Neon and Neon SA, Xenon SA (Two height Medium and small)

The Quickie headrest provides both height and angle adjustability, and can be set asymmetrically to suit individual client needs; std (4027), large (4044)

Note, headrest is same just brackets are highly different depending on the wheelchair model.

Head rest only

Available on Neon and Neon SA

Positioning belt - Available on all models

For added safety and security choose the Quickie positioning belt with its car style push to release button.

Seat depth growth kit - Available on Neon, Neon SA, and Argon

Inserted into the seat rail the seat depth growth kit provides users with an extra 5cm of seat depth often required when fitting third party backrests such as Jay® or for femoral growth.

This option cannot be chosen with the 90° fixed backrest (4017) and comes with a 70kg user weight limit

Spare cushion cover with zipper - Available on all models

Armrest

Padded Quickie-style armrest - Available on Neon, Neon SA and Argon(4265)

The padded Quickie-style armrest is lightweight for active users and can be swing-away or completely detached to aid transfers.

Available on Neon, Neon SA and Argon

Single post, height adjustable Quickie-style armrest, long pad - Available on all models

This detachable, height adjustable armrest comes complete with an integrated side guard and padded grip to help when transferring.

Available on Xenon, Xenon SA, Helium and Life

Single post, height adjustable Quickie style armrest, with short pad - Available on Xenon, Xenon SA, Quickie Life.

Quad release mechanism - Available on Neon, Neon SA, Xenon, Xenon SA and Life

For use with the fixed height or height adjustable armrests this adaption fixes directly onto the trigger of the armrest.

Armrest & Side Guards

The extensive range of armrests and side guards means whatever a user's clinical need or whatever their lifestyle demands we have an option to suit them

Fixed height armrest

The fixed height armrest comes complete with an integrated side guard painted to match the frame colour.

Using the trigger, users can flip the entire armrest back, rotate it to the rear of the backrest or completely detach it, aiding side transfers.

This armrest is available with (shown here) or without the armrest pad and T bar or with short pad - Available on Xenon SA, Quickie Life, Neon and Neon SA and with long pad only available on Xenon SA and Quickie Life.

Available on Neon, Neon SA, Xenon, Xenon SA

Height adjustable armrest- Available on Xenon SA, Quickie Life, Neon and Neon SA.

Similar to the fixed height armrest this can be flipped back, swung around and completely detached.

Users can also adjust the armpad height using the push button located to the underside of the armpad.

This armrest is available with a choice of armpad sizes

Short pad (25cm) and Long pad (30cm)

Available on Neon, Neon SA, Xenon SA, Quickie Life

Small lightweight carbon fibre side guard - Available on, Argon, Heilum, Xenon, and Xenon SA

Made from lightweight carbon fibre this fixed side guard provides active users with protection and support without compromising on weight.

Helium, Xenon, Xenon SA, Life

Neon, Neon SA, Argon

Plastic detachable side guard - Available on all models

This black plastic side guard is lightweight and rigid providing users with support and protection and like all other side guards can be detached, aiding with side transfers.

Slide back option- Available on Argon, Neon, Neon SA

Chosen in combination with the straight aluminium side guard or the straight aluminium side guard with fender this option allows the chosen side guard to be flipped back to aid with side transfers.

Side Guards

Straight aluminium side guard - Available on all models

Aluminium and painted to match the frame colour, this straight side guard provides protection from debris, whilst improving comfort through a foam inlay, also aiding stability for the user.

Available as fixed (standard option) or with slide back option (4233)

Straight aluminium side guard with fender - Available on all models

Aluminium and painted to match the frame colour, this side guard extends and rolls over the wheel to provide added protection from debris, whilst improving comfort through a foam inlay, also aiding stability for the user.

Available as fixed (standard option) or with slide back option, ideally suited for use with mountain bike wheels.

Straight carbon fibre style side guard with fender - Available on all models

This side guard provides added protection from debris, whilst improving comfort through a foam inlay, together aiding stability for the user.

Ideally suited for users looking to save weight.

Not available with slide back option

Frame inset on fixed hangers

The frame inset is the distance the front frame tapers inwards on each side providing users with a sleek stylish look, additional support around their legs and makes manoeuvring through tight spaces easier.

0cm or 3cm available on Helium
0cm or 1cm available on Xenon

0cm, 2cm, 4cm available on Argon
0cm or 2cm available on Neon

Fixed hangers / front frame
Two variations of front frame angle

Legrests

Fixed, swing-away or elevating, together with a wide range of footplates to suit every client preference.

Hangers

Quickie-style hanger - Available on Neon Swing Away.

Available in 70° or 90°, the Quickie-style hangers can be swung in or out to make room when transferring or completely removed for storage and transportation.

These hangers offer incremental lower leg length adjustment providing 22cm to 50cm lower leg length, dependent on the chair configuration.

Sopur-style hanger - Available on Neon Swing Away.

Available in 75°, the Sopur-style hangers can be swung in or out and completely removed. With new cambolt technology play is dramatically reduced.

With a larger release mechanism this hanger is easier to operate for people with reduced dexterity and strength.

Enables 22cm to 50cm lower leg length, dependent on the chair configuration.

Swing Away & Elevating Legrests

Elevating legrest - Available on Neon SA, Xenon SA

The Quickie elevating legrest can be easily adjusted by the flip of a lever.

Choose right hand, left hand or a pair dependent on user requirements.

Supplied with the divided platform footrest, painted in the frame colour, this legrest can be swung in, out or completely detached.

Elevating legrest - Available on Quickie Life, Xenon, Xenon SA

Choose right hand, left hand or a pair dependent on user requirements.

Footplates

Flip-up composite footplates - Available on Neon SA, Xenon SA

Our tried and tested Quickie flip-up footplates made from a composite plastic are both lightweight and rigid.

Used with swing-away hanger, users can flip the footplates up or swing the entire legrest out of the way.

Also available in an angle-adjustable version to suit more specific seating requirements

Divided, composite, angle adjustable footplates - Available on Quickie Life, Xenon SA and Neon SA

Used with Swing-away hanger, users can flip the composite footplates up or swing the entire legrest out of the way, also angle and height adjustable footplate.

Divided aluminium, angle and depth adjustable footplates - Available on Neon SA, Xenon SA and Argon

Similar to the platform footrest, the divided footplates are also constructed from aluminium and painted to match the frame colour.

Angle and height adjustable (via extension tubes) these footplates can also be flipped up for ease of transfer and swung away using the swing-away hangers.

Divided aluminium angle and depth adjustable footplates - Available on Quickie Life

Used with Swing-away hanger, users can flip the aluminium footplates up or swing the entire legrest out of the way, also angle and height adjustable footplate.

Angle and depth adjustable, aluminium platform footrest - Available on Neon, Neon SA, Xenon, Xenon SA and Quickie Life.

Made from aluminium and painted to match the frame colour, this enhances the rigidity of any folding chair and will benefit users looking for a stable and rigid platform.

This footplate comes complete with a horizontal calf strap and has the ability to adjust the angle to suit individual user requirements and to be flipped up out of the way when required.

Swing - away mechanism for footrest - Available on Xenon SA, Neon and Neon SA

Platform

Lightweight angle and depth adjustable platform footrest – Available on Helium, Neon FF, Xenon and Xenon SA.

Like the Argon platform footrest this provides users with both angle, depth and lower leg length adjustment.

This footrest can be flipped up for transfers or when the chair is folded.

Available in black composite, Carbon fibre or painted aluminium to match the frame colour.

Carbon fibre

Auto-folding footrest – Available on Xenon FF and Neon FF

The auto-folding footboard provides users with a strong and rigid base that can be depth, height and angle adjusted to suit individual needs.

Available in black composite and carbon fiber (Xenon only), this footboard automatically folds up when the chair is folded making transportation and storage quick and easy.

Foot positioning plates – Available on all models

The Quickie foot positioning plates provide users with added support, restricting movement.

For use on platform footrest.

Tubular footrests - Available on Helium and Argon (2106)

This lightweight aluminium footrest provides excellent chair rigidity and a solid platform.

Tubular footrests with flat cover - Available on Helium and Argon (2105)

Like the tubular footrest with the addition of a snap-on flat cover.

Angle and depth adjustable platform footrest, - Available on Helium, Argon, Xenon, Xenon SA and Helium

The platform footrest provides users with both angle and depth adjustability through the footplate whilst they are able to adjust the lower leg length through the extension tubes.

Angle adjustable composite footrest

Angle adjustable aluminium footrest, (performance) available on Xenon, Xenon SA and Helium

Platform

High mount footrest option - Available on Neon, Neon SA, Xenon, Xenon SA, Helium and Argon

The high mount footrest option is ideal for users with shorter lower leg lengths. Available in two styles; divided or platform. The footrest supplied differs depending on the chair.

Aluminium frame colour or composite footplate

Axle Plates

Fine tuning and personal adjustments are obtained through a range of axle plates allowing users to adjust the centre of gravity and seat height to their own personal preference.

Neon - Axle plates

The range of Neon axle plates has been designed to enable fast and easy adjustment of both seat height and centre of gravity, through a series of holes and bolts.

Each axle plate is unique in design and provides a different level of adjustment - For more information on the adjustability gained through each axle plate please refer to the order form.

Standard

Short

Handbike

Amputee

Suspension

Axle Plates

Argon Axle plates

The Argon and Argon Ti axle plates provide the user with fast and easy adjustment of both seat height and centre of gravity.

Unlike the Neon axle plates all of these axle plates provide infinite adjustment within a range - For more information on the adjustability gained through each axle plate please refer to the order form.

Argon - Standard

Argon Amputee

Argon - Handbike

Argon - Suspension

Castor Forks

Choose from an extensive range of castors forks (available on Xenon, Helium, Life in 3 colours, in different length and width) and Frog leg suspension fork.

Long Light-weight
Wide (98mm,
111mm,123mm)
45mm wide

Long Light-weight (98mm,
111mm,123mm) 32mm
wide

Fork - Available on Quickie Life
(available in two different widths and
lengths).

Castor Forks

Castor pin lock- Available on Neon, Neon SA and Argon (5854)

Castor Quick Release - Available on Neon, Neon FF and Argon (5826)

Frog - leg Suspension - Available on Xenon,
Xenon SA and Helium

Castors

Pneumatic castor - Available on Xenon SA, Quickie Life and Neon SA

For those users who prefer a softer ride over rough terrain, these air filled castors provide more comfort than the solid equivalent.

Available in 6" (shown here) and 7"

Solid castor - Available on Xenon, Xenon SA, Neon, Neon SA, Helium and Argon

These solid polyurethane castors are maintenance free and have a very low rolling resistance for increased energy efficiency.

Available in 3", 4", 5", 6" and 7", smaller sizes offer a better turning radius and greater foot clearance.

Soft solid castor- Available on all models

These solid castors have a wider rim and are made from a softer composite providing a smoother ride whilst still been maintenance free.

Available in 5" and 6"

Aluminium rim castors- Available on Neon, Neon SA, Helium and Argon

These low profile, maintenance free solid castors are made with a stylish aluminium rim and offer an extremely responsive ride .

Available in 4" and 5" and new extra wide version

Solid light-up castor - Available on all models excpet on Quickie Life

Stand out from the crowd with a set of light-up castors. These castors are maintenance free and are available in 3", 4" and 5".

Rear Wheels

Straight spoke wheel

These standard straight spoke wheels come in 20", 22" and 24", complete with quick-release axles.

Cross spoke wheel - Available on all models

These standard cross spoke wheels come in 20", 22", 24", 26" complete with quick release axles.

Design wheel - Available on all models

This stylish highly polished aluminium wheel has straight radial spokes and is available in 22" and 24"

Lightweight wheel - Available on all models

The lightest standard wheel on the market.

These wheels provide 1.5kg weight saving over a pair of straight spoke wheels.

Not available with solid tyres [5168].

Proton wheel (Super light weight)- Available on Xenon, Xenon SA and Helium

Everyday Spox - Available on all models

Made with a double-walled custom designed aluminium rim for strength, these wheels are extremely reliable and comfortable for everyday use.

Lightweight, reliable and maintenance free.

Available in 24", 25" and 26"

Tyres

Standard slick tyre - Pneumatic - Available on all models except on Quickie Life

This air filled tyre offers a cushioned ride and a slick tread for low rolling resistance.

Available in 22", 24" (Schwalbe right run) and 26" (slick tyre)

22" - 24" and 26"

Solid tyre - Available on all models

This black non-marking solid tyre has a smaller profile for low rolling resistance

Available in 24".

Not available with lightweight wheel.

22" x 13 / 8" puncture proof - Solid - Available on Neon, Neon SA and Argon (5233)

This black non-marking solid tyre with a stronger profile provides increased grip and traction.

Available in 22".

Not available with lightweight wheel.

Schwalbe Downtown - Available on Neon, Neon SA, Argon, Xenon and Xenon SA

At each push and particularly when braking, the hand's constant contact with tyres can result in irritation and chafing. The Schwalbe Downtown with its patented 2 grip solution consists of completely smooth sidewalls, allowing hands to glide past the tyres without irritation. Available in 24"

Schwalbe Speedrun - Available on Xenon FF, Neon, Neon SA, Helium and Argon

The new Speedrun folding tyre combines the requirements of handbikers, indoor sportsmen and everyday users. It is ultra light at just 190g and includes a highly effective puncture protection layer. The black rubber compound will not leave unsightly marks and so is also suitable for indoor use.

Available in combination with 25" Spinergy or Lightweight wheel

smartguard®

Schwalbe Marathon Plus Evolution - Available on all products

The newly developed puncture protection belt - SmartGuard® - is extremely effective at preventing tube defects. The insert, made from highly elastic, special india rubber, offers durable resistance to penetration punctures. The Marathon Plus combines the comfort and easy rolling features of a pneumatic tyre with puncture resistance associated with solid tyres. Available in 24"

Schwalbe Mountain Bike Wheel - Available on all models except on Quickie Life.

The Mountain bike wheel option comes complete with a 24" mountain bike wheel, black powder coated handrim and Schwalbe 2 grip tyre.

This off-road tyre for wheelchairs is designed with sturdy lugs and large volume so it performs well off-road.

Handrim

Aluminium silver powder coated
handrim - Available on all models

Stainless steel handrim
Available on all models

Wheel locks

Standard wheel lock - Available on all models except on Quickie Life

Spring-loaded for ease of use, when engaged the lever lies out of the way making side transfers easy.

Knee lever wheel lock - Available on all models except on Quickie Life

Spring-loaded for ease of use and mounted at knee level for easy access, this wheel lock is suitable for most users.

Extension handle - Available on all models

This extension handle makes operating the knee lever wheel lock easier for users with restricted movement.

Available in combination with knee lever brake

Grade aid- Available on Neon, Neon SA and Argon(6005)

Designed to prevent roll-back on an incline, the grade aid provides security and peace of mind when travelling up steep inclines.

Compact wheel lock - Available on all models

Ideally suited for users with reduced dexterity .

Compact wheel lock light weight- Available on
Xenon FF and Helium

Push to lock- Available on Quickie Life

Accessories

Crutch holder - Available on all models

The easy to install crutch holder keeps crutches out of the way but still in reach.

Available in combination with tip assist (1230)

Anti tip tubes - Available on Neon, Neon SA, Quickie Life and Argon

Prevent backwards tipping. Can be foot operated by the attendant.

Anti tip tubes - Available on Xenon, Xenon SA and Helium

Quickie-style anti-tip tubes - Available on Xenon SA, Helium and Argon

Transit wheels- Available on all models

Specifically designed to allow users to access tight spaces by removing the rear wheels.

Tip assist- Available on all models

This option allows attendants to easily tip the chair back to mount kerbs and steps.

Available in right hand, left hand or as a pair.

Frame protection- Available on all models except on Quickie Life

Protect the frame from everyday dents and chips with this easily applied protection sleeve. Fits onto the front frame or hangers.

Air pump - Available on all models except on Quickie Life

Bike style air pump.

High pressure air pump - Available on all models except on Quickie Life

High pressure, quality track pump.

Quickie back pack - Available on all models

The stylish Quickie back pack hooks directly onto the push handles and is ideal for storage.

Mobile phone holder- Available on Xenon, Xenon SA, Neon FF and Argon

Bag caddy - Available on all models

Can be used for carrying laptops or briefcases.

Net bag - Available on all models except on Quickie Life

Snoll on - Available on Helium
